The Altena 120 Family is a spacious and comfortable motor yacht of 12.06 x 3.95 meters, built for longer stays on board and relaxed trips on the inland waterways of Europe. The ship has a luxurious cherry wood interior, plenty of living space and is equipped with a 106 hp Vetus engine, bow thruster and generator.

The interior exudes warmth and comfort thanks to the beautiful cherry wood paneling. In the saloon and cabins, the floor is carpeted, while the galley is finished with a stylish ship's parquet. The ceiling is also luxuriously finished, which contributes to the well-kept appearance of the ship.

In the bow there is a spacious guest cabin with a bunk bed (200 x 85 cm), practical storage cupboards, portholes and an escape hatch for optimal ventilation. Then you will find the spacious U-shaped galley, equipped with a 4-burner electric stove, extractor hood, combi microwave, sink and refrigerator. Opposite the galley is a cozy U-shaped dinette, which can easily be converted into an extra sleeping place. Thanks to the open connection to the saloon, a spacious and inviting whole is created.

The saloon has a comfortable L-shaped sofa and a practical cupboard wall with plenty of storage space. In the stern you will find a separate toilet room, a separate shower cabin and the spacious owner's cabin. This is equipped with a freestanding double bed that is arranged at an angle for extra room to move. The escape hatches in the mirror provide pleasant ventilation and extra light.

This ship also offers a lot of comfort outside. The spacious aft deck is equipped with a centrally placed steering position, an extra refrigerator and a bench seat with storage space. The wide gangways make moving on deck easy and safe, while the solid stainless steel railing provides extra security.

In short, this Altena 120 Family is a very neat and fully equipped motor yacht that is ideal for comfortable holidays, long journeys and long-term stays on board. Thanks to the generator you are also less dependent on shore power, which makes this ship particularly attractive for extensive trips through Europe.
