Aquanaut 750

A real opportunity. An Aquanaut 750 – the first model that the yacht builder brought to the market in the 60s – in a very modern and complete version. Thanks to a complete refit in 2019, this somewhat older motorboat is almost as good as new.

What has been renewed? Including the wiring, paneling in HPL (does not discolor and is scratch-free), upholstery, preservation system in 2 components, windows and tent above the open cockpit. The current owners also added a bow thruster, charger/inverter, LED lighting on remote control and solar panels to the ship. In addition, the rubber bumper was replaced by a stainless steel version and the gangways were widened. The ship also excels with its handy size of almost 8 m (including swimming platform), shallow draft of 65 cm and clearance height below 2.40 m.

In short, a very compact yacht for beautiful multi-day trips!
