Aquanaut Drifter 1050 "Special"

This neatly maintained yacht is a model of thoughtful space and practical elegance. The Aquanaut Drifter 1050 AK has wide gangways with a high, robust railing. Together with the spacious stern, this immediately creates a feeling of comfort and safety. Both the aft deck and the gangways are also equipped with a stylish Flexiteek deck.

As soon as you enter through the spacious rear entrance, you immediately notice how generously the interior is laid out for a 10.65-metre motor cruiser. On the starboard side, you can enjoy a comfortable sofa in the saloon, while the port side is equipped with a practical cupboard wall and the inside steering position.

In the front of the ship there is a spacious, cozy round seat and a complete galley with an L-shaped worktop, gas stove, sink and refrigerator. Opposite the galley, extra cupboard space has been created, including a large hanging cupboard. The stern completes the picture with a spacious bathroom with a toilet, sink and shower cabin. Here you will also find the owner's cabin, which is furnished with a semi-freestanding double bed and an escape hatch in the transom. This smart and practical layout guarantees ultimate comfort, whether on short day trips or longer adventures.

In the engine compartment of the Drifter is a powerful 100 hp Yanmar diesel engine. Together with the bow and stern thruster, this engine ensures optimal maneuverability, making every boating experience a carefree combination of control and precision. Thanks to the CE-B certification and a minimum clearance of 2.45 meters, a large sailing area is within your reach: from the French canals and inland waterways to the coastal areas.
