Radar	No		
GPS	Yes, GPS Furuno GP-32 (screen not clear)		

The Aquanaut Drifter 1150 AK Europa model is a very comfortable motor yacht with an exceptionally well-equipped layout.

This robust yet elegant motor yacht is not only ideal for weekend trips, but thanks to its double-glazed (tinted) windows, Kabola central heating, and meticulous insulation, including glass wool with foil, from the waterline to the gunwales, plus extra tarec behind the paneling, it makes her ideal for longer voyages and onboard living. The low air draft of approximately 2.45 meters, a powerful 135 hp Perkins M135 diesel engine, bow and stern thrusters, and extra-large diesel and water tanks make this yacht ideal for a very large cruising area. The Aquanaut Drifter is self-supporting thanks to its generator.

Inside, a comfortable layout awaits, with the forward cabin featuring a double bed, a cozy dinette, and a very spacious U-shaped galley with a 4-burner stove, refrigerator, gas oven, sink, and a large countertop. Plenty of room for your coffee machine and kettle. In the saloon, you'll find a wall of closets, opposite which is a large sofa and table. Aft, you'll find a separate bathroom with a spacious shower, sink, and washing machine!, a separate toilet with a sink and electric toilet, and an owner's cabin with a generous freestanding bed and ample closet space.

The Aquanaut Drifter 1150 Europa is ready to set sail and create beautiful memories!
