Aquanaut Drifter 950 AK

The Aquanaut Drifter 950 AK is the smallest version in the popular Drifter series from Aquanaut Yachting. A tough, classic and at the same time timeless motor yacht known for its comfortable sailing characteristics and practical layout.

Thanks to its compact dimensions, shallow draft and the bow thruster present, this ship is very agile and easy to manoeuvre. With a vertical clearance of only approximately 2.40 metres, when the mast and windbreak are folded down, you can sail smoothly over the Frisian lakes, through Dutch canals and on the European inland waterways.

The interior is warm and attractively finished with teak. In the foreship there is a spacious V-shaped round seat that can easily be converted into extra berths. In addition, you will find a large wardrobe and a practical L-shaped galley, equipped with a worktop, sink, 4-burner gas stove, fridge with freezer compartment and plenty of storage space.

The saloon is equipped with a side door, which makes it easier to bring items on board and also provides extra ventilation and easy access to the gangway. Furthermore, the saloon has a beautiful cupboard wall, a comfortable L-shaped sofa and a clear steering position.

Via a staircase you reach the stern, where the owner's cabin is located with a double bed of approximately 210 x 130 cm. In addition, you will find a bathroom with toilet, sink and shower. The headroom is approximately 194 cm in the foreship and saloon and approximately 180 cm in the stern.

In addition to the side door in the saloon, the ship also has a direct entrance from the aft deck. The aft deck is equipped with an outside steering position and a bimini for extra comfort during sunny days. The characteristic mast, which gives the motor yacht its tough appearance, is easy to lower. The gangways are wide and safe to walk on and equipped with a solid stainless steel railing.

This Aquanaut Drifter 950 AK has been neatly maintained and has always been covered in its own berth within a boathouse.
