## Aquanaut European Voyager 1300

Aquanaut is known for building yachts that seamlessly meet the specific wishes of future owners. This is also evident from this unique and well-maintained Aquanaut European Voyager 1300 that is currently in our sales marina.

### **AQUANAUT EUROPEAN VOYAGER 1300**

The versatile Aquanaut European Voyager 1300 from 2013 is a very complete ship. This stylish, highly practical yacht is ideal for both short boat trips and long stays on the water. This was also the wish of the current and first owner. Even for habitation, the self-supported L'ARC EN CIEL (with good insulation, central heating and generator) is extremely suitable.

#### **Spacious saloon with aluminium sliding doors.**

This is immediately apparent upon entering, where the large amount of space in the saloon catches the eye. A spacious table makes it the ideal place to have a drink or dinner with your group. Thanks to the aluminium sliding doors to the open cockpit, you can widen the saloon even further.

#### **Large sundeck**

L'ARC EN CIEL has a large sundeck with 2nd steering position. From the sun deck you have a magnificent view all around and plenty of space for sun loungers, for example.

#### **Summer or winter; Always pleasant**

This Aquanaut won't let you down in terms of insulation either (<https://jachtmakelaardij4beaufort.nl/nl/aquanaut>), no matter what season you're staying on the yacht. L'ARC EN CIEL has double glazing, central heating (Webasto Thermo 90S) and good insulation with PU foam. In addition, acoustics and sound insulation have also been considered.

Do you like to cook? Then this Aquanaut will certainly not disappoint you. The yacht has a spacious galley, including a four-burner ceramic hob, large worktop, oven/microwave, refrigerator and plenty of cupboard space. This way, you can also prepare the most delicious dishes for your company on your yacht.

#### **Complete ship**

With three sleeping cabins, a total of six berths, a bathroom, two toilets and cleverly designed storage spaces, L'ARC EN CIEL is designed for larger groups. It is also a complete ship in other areas, including a hydraulic bow and stern thruster, heavy inverter/loader, separation transformer, extensive navigation equipment, a side door in the wheelhouse and a washing machine. Everything is there for a long and very pleasant stay on this Aquanaut!
