Aquanaut European Voyager 1300

Very neat and comfortable motor yacht, ideal for longer stays on board. This ship has two sleeping cabins, tinted double glazing in saloon and wheelhouse, and a maintenance-friendly Flexiteek finish around and on the fly deck. The layout and equipment make this model extremely suitable as a travel ship.

Amidships is the spacious owner's cabin with freestanding bed. In addition, there is a separate toilet room and a bathroom with shower, sink and toilet and in the front of the ship is the guest cabin with V-bed and plenty of closet space. In the wheelhouse you will find the steering position with extensive navigation equipment and a dinette that can easily serve as an extra sleeping place. Thanks to the large windows, you have excellent all-round visibility even in bad weather. The kitchen is practically equipped with refrigerator, stove and worktop. From the wheelhouse there is a side door to the gangway and direct access to the flybridge.

The spacious saloon has a U-shaped sofa, a desk and plenty of cupboard space. Through two large lacquered patio doors you enter the open cockpit with bench seat and passage to the swimming platform. The open cockpit is equipped with a longroof, which provides shelter from sun and rain and at the same time creates a generous sun deck of approximately 3.5 x 4 meters on the flybridge with outside steering position, perfect for outdoor lounging with a fantastic view. In sunny weather, the bimini offers pleasant shade.

In short: an excellently maintained and versatile yacht with CV, a powerful Perkins engine of 148 hp, hydraulic bow and stern thruster and a lowest clearance of 3.22 m. This makes the Aquanaut European Voyager 1300 a real travel ship.
