Inspired by the American Passagemaker trawler yachts, classic and robust. The ship has its own unique atmosphere on board, because the salon and the open cockpit – situated on the same level – form a unit and together with the aft deck (sun deck) situated above it, offer an enormous space. You feel like you are aboard a 15 meter ship instead of this 13 meter European Voyager.

This European Voyager, built in 2010, is very well equipped with stabilizers, auxiliary engine (home port), extensive navigation equipment, gangway, generator, Kabola heating, PU foam insulated, double glazing, washer / dryer, dishwasher, in the midship the owner's cabin etc.
