Aquanaut European Voyager 1500 II

The Aquanaut European Voyager 1500 II is a ship which is ideally suited for longer stays on inland and offshore waters.

"Argus" has had a major refit the past year; the entire interior has undergone a metamorphosis with, among other things. new upholstery, combi microwave, dishwasher installed, new 4000W inverter, the Raymarine navigation and plotter system completely checked and improved, the floors in the toilets and bathroom replaced for PVC floors with wood look, the superstructure is painted (hull in 2019 newly painted and underwater ship in 2019 blasted), the teak deck checked and where necessary repaired (the teak, of 15 mm. thick has been glued directly to the deck, instead of first on plywood), new cockpit tent and bimini, and so we can go on and on, the result is quite something.

A ready to sail Aquanaut European Voyager 1500 with a powerful Perkins M225Ti engine, hydraulic bow and stern thruster and a Hydrosta remote control for easy docking. What is also not missing is a PU foam insulation, double glazing and a Kabola central heating system.

The Argus is ready to go!
