Gillissen Steenvlet

A sturdy, round-bilged vlet from 1994, built by Scheepsbouwers Werkendam to a design by Theo Gillissen, known for his timeless lines and well-thought-out hull shapes. This excellently maintained Gillissen Steenvlet offers excellent handling and a clearance height of 245 cm, which enhances the feeling of freedom on the water. It is a truly rugged vessel, with a powerful presence and a finish that feels authentically nautical and warm.

The yacht is a true eye-catcher thanks to its elegant curves and teak paneling, which immediately adds atmosphere and character. In the foredeck is the owner's cabin with a spacious V-berth, alongside a fully equipped galley featuring a double sink, 4-burner gas stove, U-shaped countertop, and refrigerator. You will also find the spacious bathroom here, complete with a shower, toilet, and sink. The salon exudes comfort, featuring an L-shaped bench, ample cabinet space, and a well-organized interior helm station with a passenger seat. Through the French doors, you reach the open cockpit, equipped with a bench seat with storage and a practical storage locker.

This beautiful yacht is stored in a boathouse and is therefore in excellent condition. It is ideal for smaller bodies of water, coastal areas, and the Wadden Sea, making it a versatile and reliable choice for anyone looking for a characterful and solidly built vessel.
