Boiler	Yes, 40 L. via intercooling engine		

NAVIGATION

Depth sounder	no, present, sensor cable missing	GPS	No
VHF Radio	Yes, Shipmate RS8110 + ATIS	Radar	No

Step aboard the Stormvogel and discover the charm of a timeless classic ship. With a length of 10.80 meters, a width of 3.30 meters, and a shallow draft of 0.90 meters, this steel motor yacht glides effortlessly through narrow canals and picturesque lakes. The robust round bilge hull is suitable for both relaxing trips along the Frisian waters, for example, and adventurous crossings to the Wadden Islands.

Under the cabin floor is an 85 hp DAF 475 diesel engine, which allows you to set course with power and flexibility. The electric bow thruster and Becker steering system ensure flawless manoeuvring, even in narrow harbours.

Inside, warm teak welcomes you into a cozy saloon with a steering position and passenger seat, under which a refrigerator with freezer compartment is hidden. The comfortable sofa can easily be converted into a sleeping area, allowing a total of six people to spend the night in the Stormvogel. In the bow, there are two V-beds that together form a spacious double bed. The galley is equipped with a two-burner gas stove, a sink, and a practical worktop. The toilet room has an electric toilet. French doors lead directly from the saloon to the sheltered cockpit. Here, a cockpit tent provides extra protection from the wind and weather, while the sofa invites you to enjoy the view with friends and family. In the aft cabin, which normally has two single beds, a large double bed has been created.

With the Stormvogel, you can discover routes ranging from the lakes to an unforgettable crossing to Terschelling or Vlieland, for example.
