

KUSTER A-42 (STABILISATOREN)

~ Year built	2010	~ Material	Steel
~ Length	12.50 meter	~ No. of cabins	2
~ Width	4.35 meter	~ No. of beds	4
~ Draft	1.25 meter	~ Motorization	1x Vetus Deutz DET66 E635A 170 pk (Inboard)
~ Vertical clearance	3.30 meter	~ Price	€ 335,000,- (TAX paid)
~ Reference	4B394	~ Berth	Viewing by appointment only; NOT at the sales marina.

GENERAL INFORMATION

Name of the yacht	Zephyr	Designer	W. Nieland
Type	Motor yacht	Weight	20,000 kg
Yard	Consonant Yachts	Hullshape	Multi chine
CE certification	B		

TECHNICAL EQUIPMENT

Running hours	1982	Steering	Hydraulic
Number of engines	1	Thruster	Yes, hydraulic, Vetus 95 kgf
Consumption	6 ltr/hour	Stern	Yes, hydraulic, Vetus 95 kgf
Drive	Fixed propeller shaft	Stabilizers	Yes, Vetus
Cooling	Intercooling	Fuel tank	Steel
Gearbox	ZF 63A 2,5	Drinkwater tank	Synthetic
Engine control	Electric	Holdings tank	Synthetic
Propeller	4-blade propeller	Total fuel tanks capacity	2,400 liter
Shaft lubrication	Water-lubricated	Total water tanks capacity	800 liter
Total gray water tanks capacity	150 liter		

ELECTRIC EQUIPMENT

Tension	12V / 24V / 220V	Generator	No
Alternator	Yes, additional 24V/150W alternator		
Battery charger	Yes, 2x Mastervolt Combi Ultra 24/3500-100		
Isolation transformer	Yes, Mastervolt Mass GI 3,5 kW (16A)		
Converter	Yes, 2x Mastervolt Combi Ultra 24/3500-100		

ACCOMMODATION

Panelling interior	Teak	Upholstery	Fabric upholstery
Insulation	Yes, foam	Lighting	LED
Lavatory	Yes, electric		
Heating	Yes, Kabola HR300 for the water heater and radiant floor heating		
Boiler	Yes, Isotherm 40 L, 220 V, 700 W + motor		
Cooker	Yes, Bosch 4-zone induction cooktop		

NAVIGATION

Depth sounder	Yes, Raymarine	VHF Radio	Yes, Sailor 6015 + 2nd horn
Radar	Yes, Simrad Halo 20+		
GPS	Yes, SimradNSS12, Evo 3S + Raymarine Axiom 12" met RMK-10		

Kuster A-42 Zephyr

The Kuster A-42 Zephyr from Consonant Yachts is a unique vessel in which the sophisticated hull shape allows all the qualities of the Kuster to shine through. The curved surfaces give the vessel an elegant yet rugged appearance; the design is consistently focused on safety and comfort for the crew under all conditions. The entire vessel exudes craftsmanship and meticulous maintenance, featuring fresh paintwork and a beautiful teak interior finished with new upholstery.

The deck is thoughtfully and safely designed: a high-mounted stainless steel railing and strategically placed handrails provide confidence on deck, while wide gangways make mooring comfortable. Beautifully designed bollards provide excellent mooring options, and the foredeck is constructed so that any water running over it drains directly to the gangways. The Zephyr is equipped with a hydraulic anchor winch and high-mounted ventilation inlets for the engine compartment, details that further enhance safety and stability.

The open cockpit is generously proportioned and self-draining, which benefits both seaworthiness and storage space. From stern to bow, the cockpit offers plenty of storage options, making it easy to bring along bicycles. Built-in benches create a cozy atmosphere and provide extra storage space, and together with the cockpit cushions, they form a full-length seating/lounging area. A fold-down table tucks neatly into the floor, making dining al fresco a pleasure, while the well-designed canopy over the cockpit makes stepping out onto the gangway easier. The Kuster's transom features an electric fold-down door that allows for easy boarding. The outside helm station is designed as a portable, wired console that can be moved for flexible cruising.

The interior of the wheelhouse and galley combines stylish details with practical functionality. The spacious galley against the aft bulkhead is fully equipped with two refrigerators, a combination microwave, sink, and a four-zone ceramic cooktop; a sturdy aluminum door and two large casement windows provide plenty of light and good ventilation. The starboard seating area with a large table seats five people and offers a panoramic view with ample handholds in rough seas. Beneath the saloon floor is the engine compartment, easily accessible via two large hatches; the Vetus Deutz 170 hp engine is neatly arranged and equipped with dual fuel filters and bilge pumps.

The owner's cabin in the bow offers ample dressing space and a freestanding bed measuring 160 × 210 cm with a slatted base and thick mattresses, complemented by plenty of storage space, a laundry drawer, and a bookshelf against the bulkhead. The guest cabin, a box-bed-style space under the saloon floor and opposite the wet room, is generously and practically furnished. Between the owner's cabin, the bathroom, and the guest cabin is a hallway featuring a lounge area, an armchair, storage space, a TV corner, and underfloor bottle storage; ventilation and natural light are plentiful thanks to three hinged portholes and an easily accessible emergency hatch. The bathroom is accessible from the hallway and offers standing headroom, a separate, lockable shower stall with a door and extra seating, a sink with vanity, and an electric toilet.

Technically, the Zephyr combines comfort and reliability: underfloor heating runs throughout the interior, and Vetus stabilizers provide extra comfort at sea. The engine compartment is easily accessible and clearly laid out, and there are spacious tanks for diesel, water, and greywater. Hydraulic systems operate the anchor, allow the mast to be lowered, and power both the bow and stern thrusters, which significantly facilitates sailing and maneuvering. Beneath the open cockpit and on the gangways are

neatly maintained teak decks, giving the entire vessel a well-kept and stylish appearance.

In short, the Zephyr is a very well-maintained vessel that stylishly combines comfort, safety, and thoughtful functionality, suitable for those who value solid construction, seaworthiness, and a high standard of finish.

A vessel that must be seen and experienced.
