Pikmeerkruiser 11.50 Royal

The Pikmeerkruiser 1150 OK is known for its spacious open cockpit with teak floor, which is at the same height as the spacious saloon. The mahogany interior exudes warmth and craftsmanship, providing a comfortable, homely atmosphere on every trip.

In the bow is the owner's cabin with a spacious V-bed of 200 x 90 cm, which can easily be converted into a king-size bed with a filler. The L-shaped galley has a spacious worktop, 4-burner gas stove, refrigerator and sink and is practically laid out for longer trips. Opposite the galley is the bathroom, equipped with an electric toilet and a bathroom cabinet with sink; There is space to place a shower.

The saloon is light and airy thanks to large, green-tinted sliding windows that offer panoramic views and plenty of natural light. The steering, plenty of cupboard and storage space and a bench that can easily be folded out into extra sleeping places make the saloon functional and versatile. Three hatches, with hinges in the teak floor, give access to the spacious and well-arranged engine room.

Through four teak patio doors you reach the spacious open cockpit with "cellar" and a spacious, comfortable sofa that can also be folded out into a double bed. In the basement there is a Mastervolt Power generator that ensures independence from shore power.

The powerful 100 hp Yanmar engine in combination with bow and stern thruster guarantees easy and accurate mooring at any desired location; Additional control of bow and stern thruster in the open cockpit facilitates manoeuvring when mooring or in locks. With a vertical clearance of 2.40 m, this ship is excellent for extensive sailing areas in Europe.
