Lavatory	Yes, 1x electric		

NAVIGATION

Depth sounder	Yes, see chart plotter	GPS	Yes, Simrad NSS evo2
VHF Radio	Yes, Simrad RS40B	Radar	No

The Tuna 40 Classico "Ship Happens" combines elegance and sportiness in one sleek appearance. In the front of the ship is the spacious owner's cabin with a freestanding double bed, which is accessible via a directly connected bathroom. The bathroom is equipped with an electric toilet, a washbasin and a separate shower cubicle, so that comfort and privacy go hand in hand.

On the starboard side is the fully equipped galley, equipped with a Corian worktop, double sink, refrigerator and a 4-zone electric stove. Under the fully enclosed wheelhouse you will find a guest cabin on the port side with two single beds that can easily be converted into a spacious double bed with a filler. To starboard is a second guest cabin with a single bed and practical wardrobe.

In the wheelhouse itself, the steering gear is centrally positioned, with panoramic views all around. Behind the steering position, a spacious U-seat invites you to enjoy the view together, while a long bench opposite offers extra lounge comfort. Through the sliding doors you step into the open cockpit that extends over the full width of the yacht. Thanks to the fully sealable tent canvas, this place remains part of the living area even in bad weather. In addition to 3 fixed benches in the open cockpit, there is enough space for a large table with chairs. Under the cockpit floor, accessible via electrically operated hatches, are two Volvo Penta diesel engines of 190 hp each.

At the back of the open cockpit, spacious doors on both sides lead to the expansive swimming platform, which is at the same level as the saloon and cockpit. A convenient step from the cockpit provides easy access to the wide gangways, making walking on deck safe and comfortable. With a length of 12.20 m, a width of 4.35 m and a shallow draft of 1.10 m, the "Ship Happens" is ideally suited for coastal waters as well as lakes and canals, and is stable and manoeuvrable in a variety of conditions.
