Vripack cutter 865 OK "Struynere", a multi-kink bilge cutter with transom and flared bow.

The Vripack Kutter 865 "Struynere" is a very sturdy and robust yacht. The rubber bumper together with the black hull give this ship a very robust and no-nonsense appearance and her flared bow provides the elegance. Her shallow draft and vertical clearance of approximately 2.20 m make many trips on the many smaller canals possible. Once on board you will immediately notice how large the self-draining open cockpit is. It is equipped with a spacious U-shaped bench with plenty of storage space and then there is also a "basement" under this open cockpit for extra storage space. The open cockpit is equipped with a tent and because there is an outlet from the heater in the open cockpit, it is also very comfortable in less nice weather. Through the 2 opening, high gloss lacquered, doors you enter the saloon with a sofa and the steering position. From the steering position you have a good overview of the ship, the surroundings and the engine instruments. Because of the many windows, the salon is very bright. In the forecabin of the "Struynere" is on the port side the galley with worktop and is equipped with a 3-burner gas stove, refrigerator and stainless steel sink. On the starboard side is the toilet and cupboard space. In the "point" of the "Struynere" is a spacious V-bed with custom M-line mattresses.

In 2018, the current owners have made the "Struynere" with a lot of love, taste and attention to detail into the eye-catcher she is today.
